adan.khan8@gmail.com

Agra, India

SKILLS

- Node.js
- Express.js
- Nest.js
- PostgreSQL
- GraphQL
- Hasura
- Microservices architecture
- AWS (EC2, S3, CloudWatch, Lambda, SES)

PROFILE

Skilled backend developer with a strong focus on building scalable and efficient systems. Experienced in solving complex problems and optimizing algorithms for performance. Seeking a challenging role in a dynamic environment where I can leverage my expertise and contribute to the success of project while growing professionally.

EXPERIENCE

SOFTWARE ENGINEER

SoluteLabs, Ahmedabad

Aug 2021 -

- Developed backend systems using Node.js with the Nest.js framework, ensuring robust and scalable performance.
- Designed and maintained database structures, optimized complex SQL queries for efficient and high-performance data interactions.
- Integrated payment gateways, specifically Stripe, to facilitate secure and seamless transactions.
- Leveraged AWS tools and technologies to enhance system reliability, scalability, and performance.
- Successfully integrated third-party APIs, expanding project capabilities and support.
- Implemented CI/CD pipelines with GitHub and Jenkins, streamlining deployment processes and ensuring continuous delivery.
- Collaborated with overseas clients, adhering to global standards to ensure solutions were adaptable and scalable across diverse regions.
- Mentored junior developers and trainees, fostering their growth and enhancing their technical skills.
